

Super Pro Ceiling Storage

HyLoft Super Pro Storage units are the versatile, expandable way to store those big, bulky items in the garage, basement, attic, walk-in closet or any room with space for storage.

Manufactured from heavy duty steel these units hold 300 lbs. or more each—up to 600 lbs. with the 96 in. x 48 in. unit. With height adjustment to custom fit almost any space, Super Pro units can be installed almost anywhere on finished or unfinished ceilings. Available in attractive white or hammertone powder coated finish that will last for years.

Benefits of Installation

- Affordable way to turn unused ceiling space into storage space
- Heavy-duty design and construction provide storage for large, bulky items
- Versatile and height adjustable for installation anywhere, on finished or unfinished surface
- Largest unit measures 96 in. x 48 in. (8 ft. x 4 ft.) and holds up to 600 lbs.
- Improves value and marketability of your home
- Limited Lifetime Warranty
