

Copy Machines

Market Need:

- Low profile sliding system that operates smoothly and quietly that provides full access to copy machine drawer contents

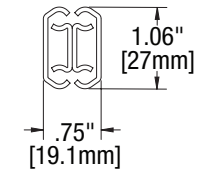

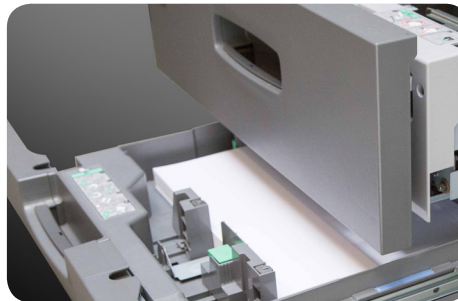

Design Challenges:

- Full access to drawer contents
- Smooth, quiet operation
- Ease of installation

KV Solution:

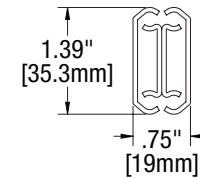

Features incorporated into copy machine slides include:

- Full access to drawer contents with full to over-travel slide extension
- Precision roll forming and ball bearing technology
- Lever or pull finger disconnect release feature
- Hole pattern attachment method
- RoHS Compliant

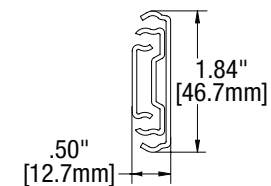

- 27mm (1.06") tall
- 19.1mm (.75") wide
- 3 member slide
