

Medical Dispensing Machines

Market Need:

- Low profile sliding system that operates smoothly and quietly that provides full access to medical drawer contents

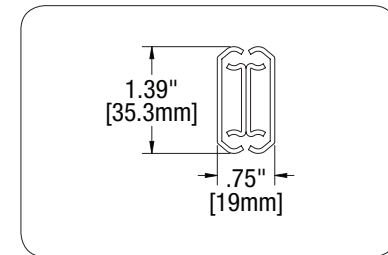

Design Challenges:

- Full access to drawer contents
- Smooth, quiet operation
- Drawer disconnect for serviceability
- Ease of installation

KV Solution:

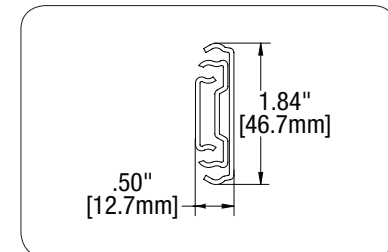

Features incorporated into medical dispensing machine slides include:

- Full access to drawer content with full to over-travel slide extension
- Precision roll forming & ball-bearing technology
- Lever or pull finger disconnect release feature
- Bayonet or hole pattern attachment features
- Hold in detents
- RoHS compliant

- 35.3mm (1.39") tall
- 19mm (.75") wide
- 3 member slide
